Sir:

With reference to the project covered by Letter Contract dated January 3, 1955, it is requested that provision be made for advance payment to the Contractor in the amount of \$1,000,000. Since progress payments are to be made not more frequently than once a month and since it is expected that the Contractor will experience a rate of expenditure approximating \$1,000,000 per month during performance of the contract, such advance payment will reduce the financing which must be undertaken by the Contractor to a nominal amount. In light of the special security requirements it would be quite difficult for the Contractor to undertake the financing, whereas provision as above requested would substantially facilitate the successful and expeditious performance of the project and compliance with the special security measures which have been directed.

Respectfully yours,
